RE: PRELIMINARY REVIEW of TEXTBOOK CHANGES
DATE: April 5, 2017

Recommendation

The attached list of recommended textbook changes for next year is being presented for the Board's preliminary review. It is my intention to resubmit this item on the consent agenda for approval at the regular Board meeting of April 24, 2017.

Textbook Adoption Process and Timeline

Requests have been proposed by teachers and were reviewed by Instructional Supervisors and Associate Principals. Copies of the textbooks will be available for viewing at Associate Principals' offices of respective schools. Eric Etherton, Associate Principal at Glenbrook North, Cameron Muir, Associate Principal at Glenbrook South, and Instructional Supervisors will be at the meeting to assist in addressing questions.

While this compilation contains the majority of textbook changes, we may bring to the Board a limited number of texts in mid-summer as a result of summer curriculum projects.

Digital Resources Update

With 1:1 Chromebook implementation, many digital textbooks and resources are proposed for adoption. Cost-savings associated with digital resources are substantial. There is no buy-back for digital versions of textbooks; however, the greatly reduced price far exceeds what parents would receive in buy-back of print textbooks.

Re: Textbook Adoptions for 2017-18

Attached you will find the Glenbrook North Textbook Change Summary 2017-18 document. The GBN curriculum has continued to evolve through the curriculum review process, the availability of digital resources, addition of new courses and updating of curricular resources and ongoing initiatives to support literacy skills. With these initiatives, changes in textbooks emerged from the following areas:

- Math (1)
- Social Studies (3)
- World Languages (7)

Textbook Change Summary 2017-2018**

Course Title	Drop	Years in Use	Add	Overall difference for cost of all materials/books in course*	Rationale
Mathematics					
MCC28300N- Calculus AB AP 183	X	12	X	+41.55	The curriculum for this class has been redesigned. This text better supports the curriculum developed for this course.
Social Studies					
SHC17300N Hst Wrld Civ Hn173	X	9	X	\$0	The new text more cohesively integrates history across cultures. It has greater sophistication and lays out in a similar style as the AP books that students encounter later.
SPC16100N Civics 161		0	X	+\$25.00	New course.
SII16300N Civics GT 163	X	0	X	+\$6.00	The course content has been changed and the book is not appropriate for the curriculum.
World Languages					
FMC57300N Mnd Chnse Hnr 573		N/A	X	+\$30.00	This is a new course for GBN and the teacher wanted to use the text to help prepare students for the AP exam and the State Seal of Biliteracy. This is the same text that GBS uses.
FSP27300N Spanish Hnr 273/373	X	7		-\$157.00	We are using our own GBN-created curriculum more than this text, and it is expensive for what it is. We will save families money by dropping it.
FFR58300N French Lang AP 583	X	9		-\$11.60	Dropping Une Fois Pour Toutes because we have better GBN-created materials. Also service from Pearson Online has been sub-par.
FRU16300N Russian 163	X	5		-\$67.45	GBN-created materials are better suited to our students' needs.
FRU26300N Russian 263/273	X	5		-\$117.00	We have created our own curriculum that is better suited to student needs and aligned with national standards.
FRU36300N Russian 363/373	X	9		-\$53.10	We have created our own curriculum that is better suited to student needs and aligned with national standards.
FRU46300N Russian 463/473/573/583	X	9		-\$146.35	We have created our own curriculum that is better suited to student needs and aligned with national standards.

*As new textbooks are selected, departments take into consideration the cost of the book. Overall, costs for courses with new textbooks are less than the previous year.

Re: Textbook Adoptions for 2017-2018

Attached you will find one document that summarizes the request for textbook adoptions: *Textbook Change Summary 2017-2018*.

The curriculum at GBS continues to evolve through the Educational Planning Process, the AP Audit, articulation with sender districts, research in best practices, and the ever changing needs of our at-risk students. GBS continues its focused work on curricular alignment, backward design, and instructional strategies. This work has led faculty in their professional conversations related to best practices in those areas. The recently adopted Technology Vision along with efforts over recent years to incorporate technology into the classroom and capitalize on online sources influences and informs the decision related to instructional materials. Some of the choices for new texts are an outcome of the continued work of these course teams as they reflect on appropriate, relevant and engaging material for students.

Along with these curricular changes, come requests for changes in a number of textbooks in English (4), health, (1), mathematics(10), social studies (2), science (6), and world language (12).

MAI36300S Algebra 2 363	X	8	X	-\$30.80	With the adoption of Common Core, the Algebra 2 curriculum has experienced a dramatic shift in concepts and topics covered. The new text is aligned to the Common Core and provides relevant examples, mathematical modeling, challenge problems, and focuses on visual learning while using different parts of the brain to connect ideas.
MAP56300S Prcalc/Discrete 563	X	8	X	-\$59.30	<i>MathXL</i> will be used for homework completion as well as formative assessments.
PE/Health/Driver Ed					
PAH13100S Health Ed LA161	X	12	X	-\$61.10	Our textbook is outdated, we are excited about the opportunity to adopt the new digital program because of both cost and accessibility to the students with using their Chromebook.
Science					
SCB13300S Biology LA 163	X	7	X	-\$82.20	The current textbook has been updated to reflect Next Generation Science Standards (NGSS) and STEM activities; new online capabilities for formative assessments, review, lesson planning, etc. will help deliver a greater variety of opportunities for learning online.
SCB15300S Biology Studies 163	X	7	X	-\$82.20	The current textbook has been updated to reflect Next Generation Science Standards (NGSS) and STEM activities; new online capabilities for formative assessments, review, lesson planning, etc. will help deliver a greater variety of opportunities for learning online.

A	Math XL	2013		\$24.45	This program can create a custom study guide plan for each student, providing extra review and practice quizzes based on concepts reviewed from homework assignments. Features like “help me solve this”, “view an example,” “Virtual Nerd” video tutorials, “ask the professor,” and direct links to the textbook are some of the tools students can use to for homework support when not in school. In addition to using this program with homework assignments, it can be used in class to create warm up/exit slips, or electronic quizzes with immediate feedback for the students. This program provides unique problems to each individual student and provides immediate feedback and guidance to students for understanding.		
D	Advanced Algebra UCSMP	2010	yes	\$80.25	The text was written before Common Core and is in need of updating. The current text is not hitting all the standards that we need and is lacking the rigor and breadth required as better prepared students who have experienced a revised, more rigorous middle school curriculum and high school algebra are now placing into Algebra 2. The new textbook will be very much aligned with the standards and needs of our students.		
A	enVision Algebra 2 CC 2018 Digital Courseware 1-year license	2018		\$25.00	With the adoption of Common Core, the Algebra 2 curriculum has experienced a dramatic shift in concepts and topics covered. This new text is aligned to the Common Core and provides relevant examples, mathematical modeling, challenge problems, and focuses on visual learning while using different parts of the brain to connect ideas. The digital platform allows the team to rearrange content if needed with embedded digital math tools as learning aids and immediate feedback for students. While there is still the option to print paper copies of resources like assessments(formative and summative), the digital platform can conform to the students’ needs by allowing for differentiated instruction in mathematical literacy, and additional practice . Having an electronic copy also saves the students money and provides easy access for students to use outside of class. This electronic version is also easier to update to new version/edition in the future if needed.

A	Math XL	2013		\$24.45	MathXL will be used for homework completion as well as formative assessments. It can also be used for quizzes and tests if the teacher desires. Having the students use MathXL for homework will increase their content knowledge because it gives them immediate feedback. If a student is struggling, it has an option of helping the student through the problem. The program will also help with the transition from the two-year precalculus program to the new one-year course.
