Re: Approval of Deferred Compensation Plans Authorized Providers

Recommendation

It is recommended that the Board of Education approve the list of deferred compensation providers/agents relative to the sale of deferred compensation plans to District 225 employees, per the terms of Board Policy 4070.

Background

As outlined in Section A.2 of Board Policy 4070: the assistant superintendent for business, or designee, shall at least annually, submit for Board of Education approval, a list of qualified providers from which District employees may purchase deferred compensation plans. All providers on the attached list comprise the District's authorized network, and all providers have been vetted through the District's third party administrator, TSA Consulting, Inc., and have signed the required service provider agreement.

The attached list of qualified providers has been updated to reflect any changes in company names (former name shown in parentheses) and/or contact information. Additionally, those providers who offer a 403(b) Roth have been identified separately.

No new providers have been added to this list.

DEFERRED COMPENSATION PLANS AUTHORIZED PROVIDERS/AGENTS

The following is a list of providers/agents authorized to sell deferred compensation plans to Glenbrook employees. Qualification of providers shall be based upon compliance with deferred compensation plan regulations, as amended from time to time, and execution of the service provider's agreement. Such qualification shall not be deemed as an endorsement by the District of any provider or plan.
