Re: Miscellaneous Topic

Date: April 21, 2016

A question was posed from a board member regarding a topic that is not currently scheduled on the board agenda. During the "Miscellaneous Topic" item on the meeting agenda, I would like for the board to consider the following question and whether they wish the administration to pursue the topic at a future meeting:

**Should the district have a more aggressive stance or approach in curtailing illegal drug use in school through the use of drug detecting dogs?**

Please spend a little time reflecting on this question for Monday's meeting.
