**DATE:** MARCH 10, 2014

**RE: APPROVAL OF SUMMER 2014 CONSTRUCTION BIDS**

**Recommendation**

It is recommended that the Board of Education approve the following contracts for summer 2014 construction projects:

Albrecht	\$582,735
Chicagoland Paving	\$387,300
Concrete by Wagner	\$15,718
Midwest Masonry	\$57,900
Monarch Construction	\$309,210
Hartwig	\$8,425
DeKalb Mechanical	\$25,500
Carey Electric	\$281,805

<b>Trade</b>	<b>Low Bidder</b>	<b>PARKING LOT WORK</b>				<b>GBS PLTW</b>	<b>GBS summer Projects (labs)</b>	<b>Total Contract</b>

	<b>Spots Gained</b>	<b>12</b>	<b>59</b>	<b>192</b>				

\*\* Note, lot B may have additional remediation work – worst case estimate is \$30K. Consultant feels little remediation will be required since the tank is made of fiberglass.

**Background**

At the November 12, 2013 board meeting, the Board approved going out to bid for the following projects:

- A. Parking Lots A&B (includes a new maintenance garage) - \$650,000
  - Parking Lot C - \$800,000
  - Map of parking lots is attached.
  - Memo from 11/12/14 board meeting is attached.

Lot B is \$27,583 or 13% higher than the estimate primarily due to the demolition costs associated with tearing down the existing maintenance building and the cost of removing the underground storage tank.

- B. Project Lead the Way - \$190,000

- C. Summer GBS Projects (peer group rooms and conversion of labs to classrooms) - \$251,892

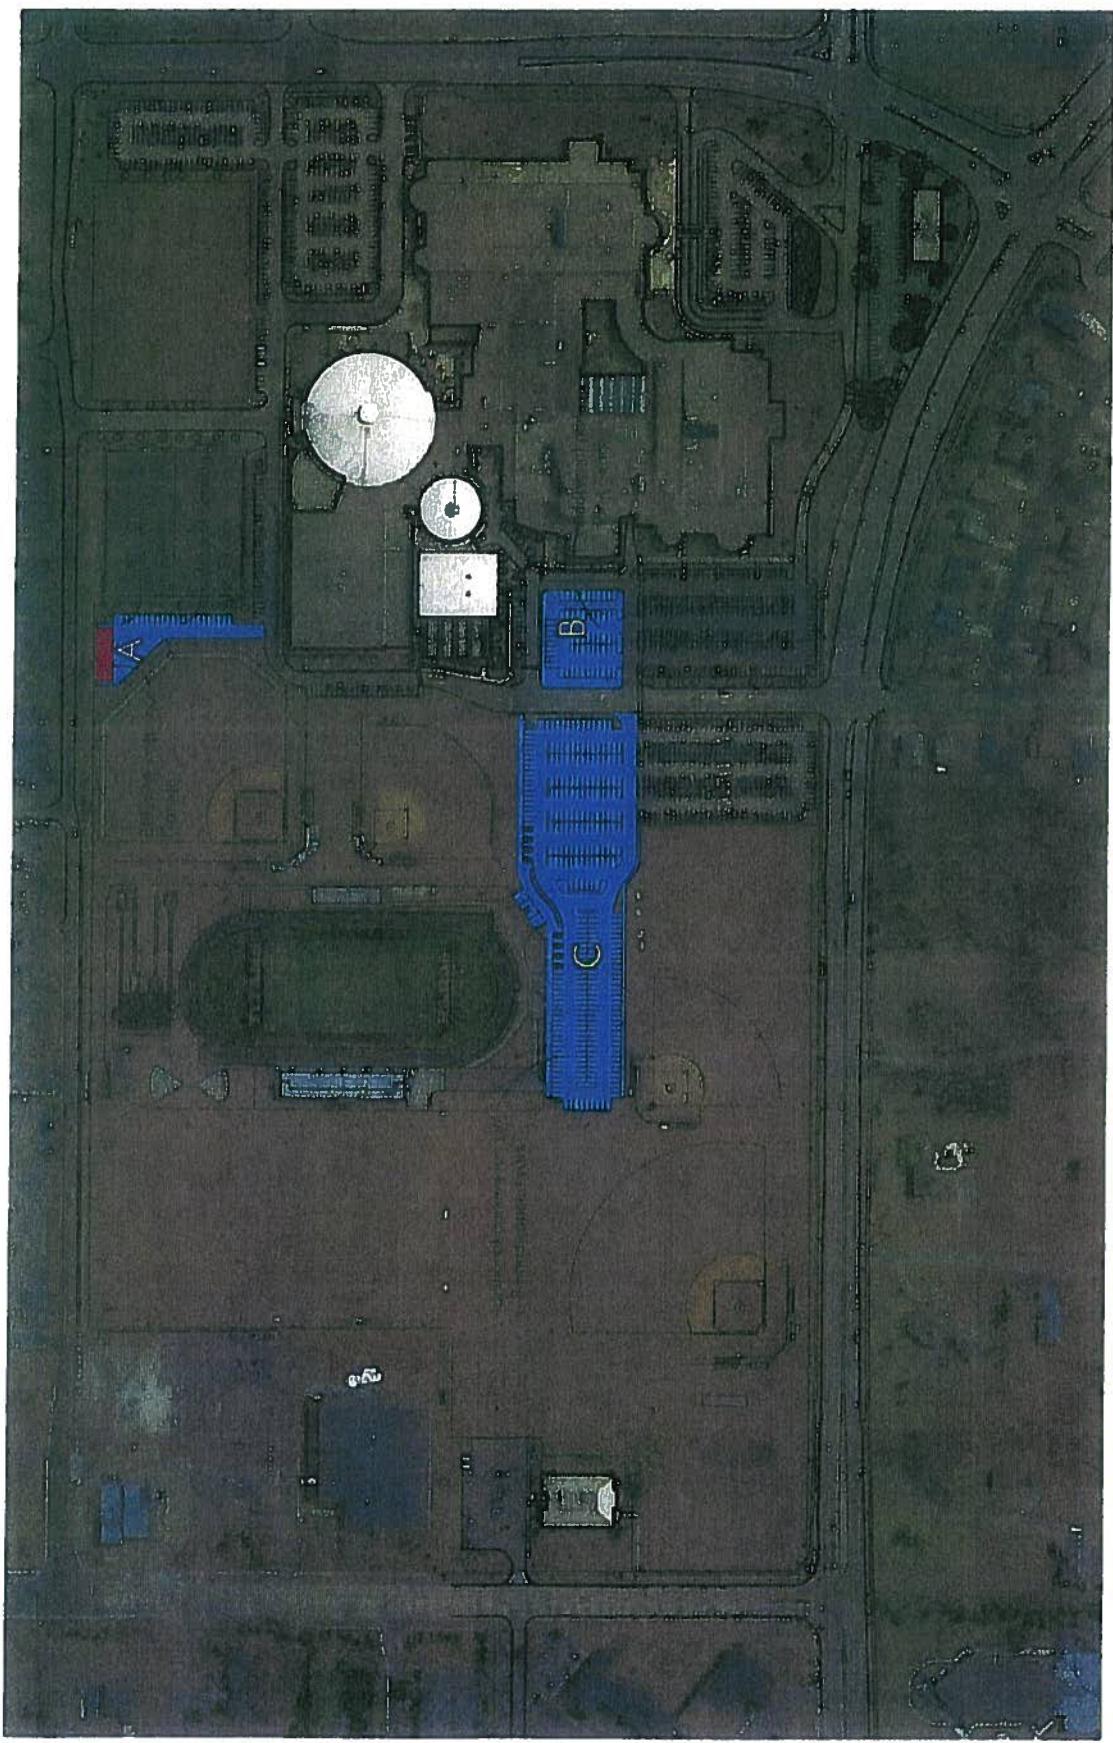

**Village Review Process Update**

On past projects, the Village of Glenview has reviewed construction plans as the local agency in the MWRD process. We have not been required to go through the Village zoning process. Last week, the Village brought to our attention that we would be required to go through their formal zoning process and adhere to their landscaping and beautification requirements. In order to fully comply with their requirements, the amount of changes would be significant. We would be required to add 53-73 trees and 18 landscape islands. In addition, 28 parking spots would be lost and new drive aisles would not align with existing drive aisles. The cost estimate for these enhancements is \$100K+. See attached plans labeled "Village Requirements".

The Village helped us craft a "compromise plan" which adds 57 trees and 10 landscape islands. The number of spots lost would be 5 and the estimated cost is \$50k-\$60k. The Village zoning process takes about six weeks and involves appearing before a zoning board, plan commission and appearance commission. During this process we would need to ask for permission to deviate from the requirements and submit an alternate plan. The Village would grant us approval on April 15, 2014. See attached plans labeled "Compromise Plan".

According to District legal counsel, the District is required to go through the Village zoning process, however does not have to adhere to the zoning requirements if it "frustrates the District's statutory duties."

# GBS PARKING

**ARCON**

**Northfield Township High School District 225**  
Glenbrook South High School - Parking Options  
Project No. 13145 November 04 2013

**GLENBROOK HIGH SCHOOLS**  
**District Business Office**

**TO:** Dr. Mike Riggle  
**FROM:** Kimberly Ptak  
**DATE:** NOVEMBER 12, 2013  
**RE:** APPROVAL OF GBS PARKING

**Recommendation**

It is recommended that the Board of Education approve adding 192 parking spots, of which eight are handicap, at Glenbrook South at an estimated cost of \$800,000. See area C on the attached map. Adding parking to area C will increase overall student parking by 43%.

To accommodate these additional parking spots, the current "Home of the Titans" Morton building would need to be removed. Temporary pods will be used for storage until a future garage is built.

<u>Area</u>	<u>Estimated Cost</u>	<u>Total Spots</u>	<u>Cost Per Spot</u>	<u>Cost Per Spot per year for 15 years</u>	<u>Annual Student Parking Fee</u>
C	\$800,000	192	\$4,167	\$278	\$285

Additionally, the Board can discuss adding an additional 68 parking spots at Glenbrook South at an estimated cost of \$650,000. See areas A and B on the attached map. These areas cost more per spot as the current maintenance garage in area B would be removed and a new garage would be built in area A. The new garage is \$250,000 of this total cost and would be the expense of Glenbrook South. If the Board decides to approve areas A and B, Glenbrook South would need to pay the district back for the cost of the garage over a three-year period. Adding parking to areas A, B and C will potentially increase student parking by 59%.

<u>Area</u>	<u>Estimated Cost</u>	<u>Total Spots</u>	<u>Cost Per Spot</u>	<u>Cost Per Spot per year for 15 years</u>	<u>Annual Student Parking Fee</u>
A&B	\$650,000	68	\$9,559	\$637	\$285
Original Proposal from 9/30/13	\$527,424	90	\$5,860	\$390	\$285

Benefits to also doing areas A & B

Completing A and B this summer have the following advantages:

1. Forty-seven additional parking spaces will be added in a prime location (area B). In addition, 21 spaces will be added in area A which will allow driver education cars, activity buses and other maintenance vehicles to be moved from prime spaces, into a space near the new maintenance garage. Building administration believes this will reduce the drop off and pick up by at least ninety-four cars per day.
2. There will not be a need to rent three storage pods on a temporary basis to house the maintenance items currently in the "Home of the Titans" Morton building which needs to be removed to accommodate area C.
3. Operationally, one garage in a more obscure location is advantageous as it reduces time spent traveling between two garages as is the current practice.
4. Completing the construction all at once increases the efficiency of the work and reduces the disruptions to school functions.

GBS funding/payback plan for the \$250,000 maintenance garage

In addition to the \$250,000 GBS is funding for the turf fields, it would be expected to reimburse the district \$250,000 for the maintenance garage if the Board decides to approve areas A & B.

Funding for the full \$500,000 is as follows -

1. Budget Year 2015 - \$100,000 from GBS's increased budget allocation
2. Budget Year 2016 - \$300,000 from GBS's increased budget allocation and not completing a small building project.
3. Budget year 2017 - \$100,000 from the small building projects

Background

At the September 30, 2013 Board meeting, administration recommended adding 90 parking spots at an estimated cost of \$527,424. This also involved rebuilding a maintenance garage. See "Original Proposal" attached. At this meeting, the Board asked the administration to look at other options to increase the number of spaces at a lower cost per space. Administration feels area "C" accomplishes both.

Several other areas were considered, but areas A, B and C are the only areas that will not take away current athletic fields at GBS. In addition, administration contacted several building owners to the east of GBS to inquire about renting additional spots. Building owners were not interested due to liability, supervision and capacity concerns.
