RE: Building Operating Budgets FY2014

It is recommended that the Board of Education approve the FY2013-2014 Building Operating Budgets as follows:

Glenbrook North	\$2,375,413
Glenbrook South	\$3,045,037

Background

The methodology used to calculate the building operating budget allocation was established by the Board of Education in FY1995/96. Two main factors are used to establish the allocation: 1) projected enrollment and 2) an annual cost of living adjustment. The final allocation for each school is computed as follows: one-third of the total allocation is allotted equally to each school for fixed costs (ex. building maintenance and supplies), and two-thirds of the total allocation is allotted to each school based upon enrollment. Following is a list of items which are included as part of the building operating budgets. Under the District’s site-based management structure, each building has the responsibility to allocate funds according to their respective needs and priorities.

- Departmental Budgets
- Small Building Projects (pre-approved by the Board)
- Substitute Costs for Professional Development
- Hourly Overtime
- Equipment/Capital Item Purchases (pre-approved by the Board)
- Student Transportation (Excluding Special Education and Regular To/From School)

Following is a list of historical building budget allocations since FY2005 and the overall % change each year:
