RE: DISCUSSION/ACTION: TRAFFIC SIGNAL BID RESULTS

Recommendation

It is recommended that the Board of Education award a contract to City Lights in the amount of \$32,049.

Background

At the March 18, 2013 board meeting, the Board approved the paving work associated with creating a three lane egress from the main entrance at GBS onto Pfingsten Ave. This work includes widening the lanes and reducing the island. The contract was awarded to Superior Paving at a price of \$20,500.

We told the Board IDOT was still reviewing the requirements for work on the traffic light which we expected to include updating all existing bulbs to LED lights and adding pedestrian cross counters and push buttons. We expected this work to cost \$50k-\$60k. Bids were opened on Monday June 3, 2013 and the low bid was City Lights in the amount of \$32,049. Grant opportunities are being explored.

Bid Results

City Lights	\$32,049
Hecker & Company	\$39,873
Home Towne Electric	\$124,379
Estimate	\$50,000 - \$60,000
