RE: PRELIMINARY REVIEW FOR TEXTBOOK CHANGES FOR THE  
2012-2013 SCHOOL YEAR

DATE: April 4, 2012

Attached you will find the list of textbook changes we are recommending for next year for Glenbrook North, Glenbrook South, and Glenbrook Academy of International Studies.

The requests have been reviewed by the teachers involved, the instructional supervisors and the associate principals. All attached requests are recommended for approval. Copies of the proposed textbooks will be available at the Board meeting for review on Monday, April 9, 2012. Kris Frandson, associate principal at Glenbrook North and Cameron Muir, associate principal at Glenbrook South will be at the meeting to assist in addressing Board questions as will instructional supervisors. Note that Academy textbook proposals are contained within the GBS report as the GBS bookstore orders Academy textbooks.

While this compilation reflects the majority of textbook changes, we may bring to the Board a limited number of texts in mid-summer, which reflect instructional decisions made during summer curriculum projects.

I recommend that the attached list be presented to the Board of Education for the Board's preliminary review at its meeting of April 9, 2012. **It is my intention to resubmit the changes for Board approval at the regular Board meeting of April 23, 2012 on the consent agenda.**

# Memo

**To:** Rosanne Williamson, Assistant Superintendent  
**From:** Kris Frandson, Associate Principal for Curriculum & Instruction  
**Date:** March 22, 2012  
**Re:** Textbook Adoptions for 2012-2013

---

Attached you will find one document that summarizes the request for textbook adoptions for the 2012-2013 school year: *Textbook Change Summary 2012-2013*.

The GBN curriculum has continued to evolve through the Educational Planning Process, participation in articulation with sender schools, the availability of instructional technology components that accompany many new textbooks, student enrollment and changes in curricular programs. In light of these initiatives, come requests for changes in a few textbooks in English (1), music (1), social studies (1) and world languages (2). The remaining textbooks proposed for adoption are due to publisher changes and availability of textbooks in social studies (1), world languages (8).

**To:** Rosanne Williamson, Assistant Superintendent  
**From:** Cameron Muir, Associate Principal for Curriculum & Instruction  
**Date:** March 23, 2012  
**Re:** Textbook Adoptions for 2012-2013

---

Attached you will find one document that summarizes the request for textbook adoptions: *Textbook Change Summary 2012-2013*.

The curriculum at GBS continues to evolve through the Educational Planning Process, the AP Audit, articulation with sender districts, research in best practices, and the ever changing needs of our at-risk students. In 2011, GBS began a new school improvement cycle with the adoption of its revised organizational goals. The focus of the GBS faculty on curricular alignment and instructional strategies has led course teams in their professional conversations related to best practices in those areas. Some of the choices for new texts are an outcome of the continued work of these course teams as they reflect on appropriate, relevant and engaging material for students.

Along with these curricular changes, come requests for changes in a number of textbooks in Business Education (3), English (1), Mathematics (3), Science (2), Social Studies (4), Special Education (8), and World Language (13). The remainder of textbooks proposed for adoption are due to publisher changes and availability of textbooks in Family Consumer Science (10), Science (4), and Social Studies (2), World Language (4).

<b>English/ELL/Broadcasting</b>					
English 161 ENG16100	X	5		-\$11.00	The book is not needed; we have sufficient materials elsewhere.
English 263 ENG26300			X	+\$12.75	The Strange Case of Dr. Jekyll and Mr. Hyde supports a discussion of the new guiding question of our course, which is "What happens when our personal codes and societal codes conflict with each other?" Also, the book allows for a discussion of some essential questions that cannot be fully explored in current books; these questions include "How do internal and external codes construct reality" and "What are the consequences of breaking internal and external codes?" In addition to supporting the new theme and essential question of the course, the book offers students a variety in historical perspective, voice, and genre. The book is attainable, but challenging enough for students to sharpen their critical reading skills.
