From: Mike Riggle

Re: Update on Enrollment Relative to Activities and Athletics

Date: May 14, 2015

In the spring of 2014, the administration assembled student participation numbers in the areas of student activities and athletics at both schools for the purpose of tracking the numbers during the period of growing enrollment at Glenbrook South. From these numbers, an estimate was prepared that would show possible participation numbers when the GBS student population reaches 3100. The administration also prepared findings and recommendations to address participation concerns.

Recommendations from 2014

Activities – Findings:

- Both schools offer diverse opportunities
- There is flexibility to create clubs based upon student interest
- Interests vary between schools
- Enrollment-driven budget allocations provide equity in funding between the schools
- Some clubs provide limited opportunities in student participation

Activities – Areas of Concern:

- Clubs may need additional sponsors
- Increased competition for performance opportunities at GBS
- Current performance/rehearsal venues are at capacity at both schools

Athletics – Findings:

- Both schools offer comprehensive athletic programs
- There are similar cut and non-cut sports at both schools
- Sports emerge based upon student interest
- Participation numbers may drive additional levels of a sport athletics

Areas of Concern:

- Non-cut sports may need additional coaches at GBS
- Increased competition for athletic opportunities at GBS
- Current competition/practice venues are at capacity at both schools

In a similar manner to 2014, the participation numbers for 2015 were gathered and the template was revised to allow comparison with the numbers for 2014. On Thursday, May 7, I met with the building principals and the assistant principals for student activities and athletics to review the numbers and discuss recommendations for the 2015-2016 school year. Following the meeting, some minor adjustments were made to the student activities participation numbers.

Recommendations for 2015

The findings and recommendations in both areas are primarily the same.

In student activities, facilities for performance are being used to the maximum amount possible at both schools. Their recommendation would be to increase the number of performance areas at each school. This would be in the form of a small theatre facility commonly known as a black box theatre that could be used for smaller performances and recitals.

In athletics, the number of sports currently offered has the physical facility at each school at operational capacity. The demand for practice space has increased since cheerleading and poms were added by the IHSA as competition events. In a similar manner, the athletic directors feel that an increase in practice areas would be helpful.

In 2014, the athletic directors cited that there may be need to add coaches in sports that are no-cut. This year, they are requesting an additional coach in wrestling at each school and an additional coach in baseball. These positions would have to be negotiated as to level and compensation with the GEA as part of the differential schedule.

## 2014-15 Student Activities Participation - Differentials
